ASTILBE, PEACH BLOSSOM

## Muscari, Heavenly Blue

Grape Hyacinth

The best known and most deservedly popular Grape Hyacinth. Few flowers combine with others as these lovely little harbingers of spring. With daffodils, they are nothing less than glorious, as you may well see from the picture. They are excellent also for edging spring borders, for rock gardens, around shrubbery and trees, and around old tree stumps where they nestle enchantingly. They may be planted as close as 2 inches apart for a massed effect. They soon form clumps and being perfectly hardy, reappear each spring to surprise you again with their beauty.

Doz. 65c, 100 \$5.00

MUSCARI, HEAVENLY BLUE, AND DAFFODIL, EMPEROR

## Astilbe - Spirea

Sturdy plants that give great sprays of flowers in June, over finely cut foliage. Excellent for shade and also suited for full sun. They are especially suited to damp spots in the garden. Soil should be deep and rich with plenty of leaf-mold and manure.

**Deutschland** Three \$1.50  
The finest pure white variety, free-flowering and strong.

**Peach Blossom** Three \$1.50  
Great feathery plumes of lovely pink flowers.

**Granat** Three \$1.50  
Striking crimson flowers, shaded salmon. Long, fine spikes.

## Daffodil "Emperor"

The flowers are of cheeriest bright yellow, so welcome in early spring. The trumpet, a shade more golden than the perianth segments, is gracefully fluted and fluted. This is the foremost Daffodil for naturalizing, an addition to any garden.

Doz. \$1.75, 100 \$12.00

### Combination Offer

MERTENSIA VIRGINICA

## Mertensia (Virginia Bluebells)

Originally a woodland plant, but by reason of early and profuse flowering habit, just the thing for the garden. They grow in any kind of soil, very definitely prefer moisture and shade or semi-shade. They may be grown in more open positions, if one will water heavily during the summer.

**Virginia** Three 95c, Doz. \$3.25

Large clusters of clear blue bells, tinged with delicate pink in April. Fine for woodland and shrub plantings and to naturalize with spring bulbs. Plant in clumps of six or more. Height 1 foot.

## Star of Bethlehem

Ornithogalum are very easily grown bulbs, especially Umbellatum, which multiplies rapidly under any conditions.

**Thyrsoides flore-pleno** Doz. \$1.25

The double form we now offer is much more desirable than the single-flowered variety. The fine double white flowers remind one of the Pearl Tuberose, lasting weeks on end. Fine cut flower, 24 to 36 inches.

**Umbellatum** (Star of Bethlehem) Doz. 75c, 100 for \$5.50

Narrow, grasslike foliage growing to a height of about 6 inches with many white, open star-shaped flowers tinged with green in mid-May. Perfectly hardy, growing in heavy shade in woods where it naturalizes well, and under shrubbery. Multiplies rapidly, a few bulbs soon making a large colony.

## TUBEROUS BEGONIAS for easy indoor forcing

Almost all gardeners know the exotic beauty of the tuberous-rooted Begonia, with its stunning large flowers and decorative foliage. Gardeners know, too, that these exquisite subjects are easy to grow, require little care, and above all, thrive in the shade. With all these advantages, tuberous-rooted Begonias are a "natural" for indoor growing during the winter months.

Ordinarily, Begonias are impossible to obtain until late January, a time that is really too late to plant for bloom during the winter. But Flowerfield will have a supply of specially processed bulbs that will be available much earlier, in October. Due to the limited supply, we offer mixed bulbs only with a fine range of color and types.

Special Mixture: Three \$1.00, Ten \$2.95

## Flowerfield's Finest Mixed Tulips

Here is a really fine assortment. All May-Flowering, all blooming together, but in every conceivable color, shape, variety, and type. For cutting they are superb. There are giant varieties in deep, rich colors, reds, whites, blues, yellows, purples, as well as deep bronze and orange tones, with even a few double and a color kind. Mixed by hand to please you.

Price \$1.00 per dozen.

JOANNA HILL

## Three Favorite HYBRID TEA ROSES

Their beauty needs no description—but the best thing about these time-tested favorites is their vigorous growth. They are all strong rugged growers with exceptionally rich, dark green foliage on long sturdy canes. Combining this health with the striking beauty of the flowers results in three of the most satisfactory Roses we grow.

REGALE  
LILY

## Trout Lilies

(Erythroniums)

### Mixed Colors

The lily-like flowers nod gently in April, on stems 6 to 7 inches high, above distinct, attractively mottled foliage. Plant them 4 inches deep and 2 to 3 inches apart.

Doz. 95c

## MADONNA LILIES (Candidum)

The Madonna Lily is universally known and loved for its fine, pristine white, trumpet-like blooms, hailed everywhere as a symbol of purity. They bloom in early July on 4-foot stems.

Ordinarily, Candidums should be planted in August and September, but we have carefully prolonged the dormancy of a special lot of bulbs in our scientifically controlled storage warehouse, and these we will ship in early October, reaching you in perfect condition for immediate planting.

The protection of a mulch is advised for October planted bulbs. Grow them in a sunny, well-drained spot, place the top of the bulb only an inch or two beneath the surface.

Each 50c, Doz. \$5.00

We also have available a limited supply of mammoth double-nosed bulbs, giving two or more flower spikes each.

Each 75c, Doz. \$7.50

# *Can POTATOES Be Beautiful?*
